Proposed Resolution

STRATEGIC PLAN OF THE PAN AMERICAN HEALTH ORGANIZATION 2026–2031

The 62nd Directing Council,

(PP1) Having considered the *Strategic Plan of the Pan American Health Organization 2026–2031* (Document CD62/4) presented by the Director;

(PP2) Recognizing the participatory process undertaken in the formulation of the Strategic Plan through consultations with Member States and other stakeholders, including the four intersessional meetings as mandated by Decision CE176(D3), to resolve the remaining concerns on the proposed Strategic Plan;

(PP3) Considering the evolving health situation and significant health challenges faced by the Region of the Americas in the pursuit of the highest attainable level of health for all;

(PP4) Welcoming the strategic vision of the Strategic Plan under the theme *Together toward a Healthier Americas for All*, which aims to improve health and well-being for everyone throughout the Region and strengthen health system resilience;

(PP5) Acknowledging that the Strategic Plan represents a comprehensive and collective set of results that the Pan American Health Organization (PAHO) aims to achieve, and that reporting on the implementation of the Strategic Plan and its program budgets will constitute the principal means of ensuring accountability for results, in line with the principles of results-based management;

(PP6) Recognizing the need for the Strategic Plan and its program budgets to remain flexible for adjustments during implementation while maintaining full transparency and accountability,

Resolves:

(OP)1. To approve the Strategic Plan of the Pan American Health Organization 2026–2031 (*Official Document 374*).

(OP)2. To thank Member States and stakeholders for their strategic and technical input and commitment in participating throughout the development of the Strategic Plan, and to thank national health authorities that completed the review of programmatic priorities.

(OP)3. To urge all Member States, considering their national contexts, laws, and priorities, to identify the actions to be taken and the resources needed to achieve the collective targets set in the Strategic Plan.

(OP)4. To request the Director to:

- a) use the Strategic Plan to provide strategic direction to the Organization throughout 2026–2031 to advance national and regional priorities and contribute to those at the global level;
 - b) use the programmatic priorities defined in the Strategic Plan to inform its implementation through its program budgets and their biennial work plans, as well as for resource allocation and mobilization efforts;
 - c) continue to utilize joint monitoring and assessment tools, expand the collection of disaggregated data, and strengthen the use of existing information systems to report on the implementation of the Strategic Plan and its program budgets;
 - d) report to the Governing Bodies of PAHO on the implementation of the Strategic Plan through end-of-biennium assessment reports in 2028, 2030, and 2032;
 - e) inform the Governing Bodies of PAHO of any necessary non-material changes to the Strategic Plan through end-of-biennium assessment reports and submit, as an amendment of the Strategic Plan for decision by the PAHO Governing Bodies, any necessary material changes that alter the commitments of the Strategic Plan.
-
